- ◆ Required for Level III certification in FE Career Field
- ◆ Delivery starts in October 2004
- ◆ Prerequisites:
ACQ 101
FE 201
- ◆ Course Manager:
LCDR Mark Van Vleck

About DAU

The Defense Acquisition University (DAU) provides mandatory, assignment-specific, and continuing education courses for military and civilian acquisition personnel within the Department of Defense.

As the DoD corporate university for acquisition education, the DAU sponsors curriculum and instructor training to provide a full range of basic, intermediate, advanced, and assignment-specific courses to support the career goals and professional development of the Acquisition Workforce.

Each DoD acquisition functional area is represented by a Functional Integrated Product Team (FIPT), comprised of senior-level acquisition officials of the DoD components and led by Functional Advisors. These teams advise the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) on career development issues and recommend mandatory training, education, and experience required for their respective functional areas.
